

Updated 2015 Warren County Prime Beef Festival Derby Rules

(These rules apply to all races – Demo, Oval & Figure 8)*
\$1,000 to win the Open Wire Class (3 places will be paid)**
We will run a compact class & will run other classes if there
are enough entries.**

- Any year of car. No Imperials/Suicide Lincolns/Hearse
- General car prep: Please have all glass, window/body trim removed as well as gas tank and bumper hitches.

- BUMPERS: You may use any year of bumper. You may weld the skin down if you wish. NO HOME MADE BUMPERS ALLOWED.
- You may weld/bolt/chain wire bumpers on. Please keep welds within 4 inches of the backside of the front and rear bumpers.

- DRIVE TRAIN: You may run any brand engine/ transmission combo you wish.
- You may run any rear end setup you wish.

- SUSPENSION: A-arms can be welded down, bolted or chained. No coil to leaf spring changes as well as no flat stacks. Must be staggered leafs setups.
- You may have hump chains to set ride height.

- BODY and FRAME: Driver's door and passenger door maybe welded. All other doors, trunks, hoods and tailgates must be wired or chained.
- You may crease the body and notch, dimple or bend frame how you wish - just no welds to repair these areas.
- You can change the front to body mounts on the core support; all other mounts need to be stock.
- Cage needs to be at least made of 2 bars (max of 4). 2 cross bars

and 2 side bars with no down bars to the frame or body. Gas tank protector bars are ok if welded in properly.

- Please, no grader blade on the outside of your cars anymore.
- Please leave as much of the firewall and floor boards as possible. If you have yours cut out please have a way of covering it up – it's for your protection. Thanks.
- We will allow roof protection bars.
- **FRAME IS SUBJECT TO BE DRILLED BY INSPECTOR**

EXTRAS:

- * Please have metal fuel cell or a boat tank and it must be secured. NO gas tanks from car in the back seat will be allowed
- * Oil and transmission coolers are ok
- * DP's, engine cradles, slider shafts and aftermarket steering is allowed

Fixing a Pre-Ran car:

You may fix cars in 2 ways: You may weld a crack in the frame with 1 pass, 1/4 inch wide, total of 4 inches per frame rail OR you may use 1 patch per side, 4x4x3/16. Please do not abuse this rule. We ask that you spray paint it and show inspector at check in.

****The Open wire class is the ONLY class with a guaranteed payout. All other classes will run for a return of the entry fees collected for that class.**

*****For the Oval and Figure 8 races we will only be checking gas tanks, driver's protection, seat belts and battery protection.**
